

# A BEAR MARKET WE CAN ALL INVEST IN.

We secure a brighter future for everyone when we improve  
the physical and emotional health of our children.

At Dominion, we believe that every child deserves an opportunity to reach his or her full potential. That's why we've made underprivileged youth an important part of our corporate philanthropy and employee volunteering. By helping these young

people grow and develop in mind and body, we're not only improving their future, we're investing in the future for us all. To learn more about how we're putting our energy to work for children, visit [www.dom.com](http://www.dom.com), keyword: foundation.
