

When you contribute to EnergyShare, you're warming more than just hearts.

The ongoing generosity of Dominion customers and employees has helped us heat the homes of those who need help the most. The program is called EnergyShare, and assistance can be used for any kind of heat: oil, gas, kerosene, wood or electricity. In fact, over the last 30 years, EnergyShare has distributed \$52 million in contributions and helped more than half-a-million people. So we wanted to say thank you. Thank you for what you've given. Thank you for considering a gift to EnergyShare again this year. And thank you for helping so many people go to sleep in homes that are warm. For more information about how you can help, please visit dom.com/EnergyShare.

EnergyShare™
30TH ANNIVERSARY
