

## FORTUNATELY, BETTER WAYS TO SAVE MONEY ON YOUR ELECTRICITY BILL ARE WELL WITHIN YOUR REACH.

**Although we can't control global fuel costs, we're working hard to control the things we can.**

Rising global energy costs are affecting everyone—including Dominion and the nearly 6 million Virginians we serve every day. That's why we're working hard to help customers reduce electricity usage and lower their monthly bills.

To learn more about these and other ways Dominion is helping Virginians lower their heating and cooling bills and manage the rising cost of energy, visit [www.dom.com](http://www.dom.com):

- Dominion's new online **Energy Calculator** provides customers with energy-saving information customized for their specific home or business.
- A unique discount program sponsored by Dominion offers **compact fluorescent light bulbs (CFLs)** at substantial cost savings. CFLs use 75% less energy and can last 10 times longer than traditional incandescent bulbs. More than 1 million CFLs have already been sold.
- **Budget Billing** lets customers manage their energy costs by paying a fixed amount each month, eliminating seasonal fluctuations in bill amounts.
- A new **Business Advantage** program extends the benefits of budget billing to small- and medium-sized commercial customers and most non-profits. Eligible customers will be able to sign up beginning July 1.
- "More Than 100 Ways To Improve Your Electric Bill," published by the Edison Electric Institute, provides **easy-to-use tips** on practical ways to cut electricity use and save money. To download a copy visit [www.dom.com](http://www.dom.com) (keyword: 100 ways).
- \$5 million in additional funding for **EnergyShare** to help elderly customers and families in need with heating and cooling assistance.

Global energy costs may be changing, but our commitment to helping customers maximize their energy dollars is not.
