

IT'S GOOD TO HAVE CHOICES.

WITH DOMINION'S ENERGY CHOICE PLAN, YOU PICK THE NATURAL GAS SUPPLY OPTION WITH THE PRICES AND PLANS THAT ARE BEST FOR YOU.

Dominion's Energy Choice program allows you to pick your own gas supply option—and even choose not to make any choice at all. Eligible customers can participate in one of the following three ways:

1. Review the supplier options and choose the Energy Choice natural gas offer that's best for you.
2. Join a municipal aggregation program, if one is available in your area.
3. Or choose not to make a choice—and receive natural gas from an approved supplier at the Standard Choice Offer or Monthly Variable Rate.

No matter what you decide, Dominion East Ohio will continue to deliver gas to your home, read your meter, handle billing, and provide both emergency and customer service. Already made a choice? Then you don't have to do a thing until you decide it's time to review your options.

So please visit DominionGasChoice.com to learn more about your energy choices, as well as current prices and plans. Other valuable resources include the Public Utilities Commission of Ohio's Web site (PUCO.ohio.gov) and the Office of the Ohio Consumers' Counsel Web site (PickOCC.org).
