

EVERY DAY

DOMINION LINEMEN RANDY HARLESS AND RODNEY JACKSON DO WHATEVER IT TAKES TO KEEP POWER FLOWING THROUGHOUT VIRGINIA.

These are the guys who do it. They work with wires carrying tens of thousands of volts of electricity, and they do it in any weather. In fact, the worse the weather gets the more likely they are to be out on the road and up in the wires—making sure our customers stay safe and warm. And our linemen don't do it alone. Hundreds of others work with them to restore service if a storm manages to knock it out—because nothing's more important than getting the power back on quickly and safely.

To report power outages, please call us toll-free at 1-866-DOM-HELP (1-866-366-4357).
