RE: VSMP Construction Stormwater General Permit No. VAR10-10-101574
North Anna Power Station; 1022 Halet Dr.

Dear Eugene S. Grecheck:

The staff has reviewed your registration statement and has determined the land-disturbing project is eligible for coverage under the VSMP General Permit for Discharges of Stormwater from Construction Activities (VAR10). The effective date of the permit is July 1, 2009 and the expiration date is June 30, 2014. Your project specific permit number is VAR10-10-101574.

The permit is at

http://www.dcr.virginia.gov/soil_and_water/documents/vsmpgenpermvar10.pdf on the DCR web page. Print the VAR10 permit and read it carefully as you are responsible for meeting all the permit conditions.

A copy of this permit coverage letter, registration statement, copy of the VAR10 permit, and the stormwater pollution prevention plan (SWPPP) must be at the construction site from the date of commencement of the construction activity to final stabilization. In addition, DCR staff conducts periodic site inspections for compliance with the permit.

Additional information on the permit and DCR staff contact information are available at **http://www.dcr.virginia.gov/soil_and_water/vsmp.shtml** on the DCR web page.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric R. Capps".

Eric R. Capps
VSMP Construction Permitting Manager
