

**The Dominion Green Power® program** is certified by Green-e® Energy. As part of this certification, we are required to provide you with detailed information about the Green Power product, including this Product Content Label and the program's Price Terms and Conditions.

## Product Content Label

When you enroll in Dominion Green Power's 100% Option, you purchase renewable energy certificates equal to 100% of your monthly electricity usage from a blend of renewable energy sources. The product is comprised of the following new renewable resources averaged annually:

Renewable energy source	2012 Projected mix (location)
Wind	74% (MD, PA, VA, WV)
Biomass	25% (MD, NC, PA, TN, VA, WV)
Solar	1% (VA)

**More information about the Green Power mix:** These figures represent the anticipated mix of renewable energy certificates to be purchased for 2012 on behalf of Dominion Green Power customers. These figures, mixes, and locations are expected to change over time. Green Power participants will receive an annual update on the Green Power resource mix and the states where the renewable energy facilities were located.

**More information about the facilities:** All facilities supported by this program are considered new, which means they began commercial operation on or after January 1, 1997. Where feasible, Dominion will support renewable energy facilities in Virginia.

**Information about Dominion's Mix:** The 2010 generation mix for Dominion Virginia Power included: Coal (41%), Nuclear (38%), Natural Gas (12%), Hydro/Other Renewables (7%), and Oil (2%).

**Program Certification:** Green-e Energy certifies that Dominion Green Power meets the minimum environmental and consumer protection standards established by the non-profit Center for Resource Solutions. For more information on Green-e Energy certification requirements, call 1-888-63-GREEN or visit [www.green-e.org](http://www.green-e.org).
